

Nwanochiri Ogochukwu Gloria

Creative Technologist

I'm a curious and creative technologist with a background in software engineering, artificial intelligence and graphic design. My passion for technology goes beyond academics and as I continue growing as a student and professional, I'm eager to apply my skills in AI to make a real impact.

• Work Experience

Sept 2018 - Sept 2019

Leadership Role

Mater Christi Secondary School, Awada

Served as Academic Prefect, supporting students in achieving their academic goals and coordinating school academic activities. Acted as a liaison between students and teachers, developing leadership, organisational and communication skills.

Jan 2020 - Dec 2021

Sales Representative

Dubros International Agency

I worked closely with customers and beyond sales, I also handled the business finances, keeping records and making bank deposits. This role taught me responsibility, organisation and how to build trust with both customers and the business.

Jan 2021

Freelance Graphic Designer

Glosmotec

Through my freelance brand Glosmotec, I worked with clients to design logos, fliers and digital content that matched their vision. I managed each project from start to finish, listening to client needs and this experience helped me grow not just as a designer but also in communication and problem-solving.
